

SURGICAL SERVICES ASSOCIATE IN SCIENCE

ADMISSIONS GUIDE

ABOUT THE PROGRAM

Surgical Technologists are an important part of a patient care team working under a surgeon, anesthesiologist or anesthesiologist, or professional registered nurse during surgical procedures. Your job may take place in hospital operating rooms, delivery rooms, ambulatory centers, and physician offices where you help maintain a safe, clean operating environment.

Program Information and Schedule

- The A.S. Surgical Services degree will prepare students for the National Licensing Certifying Examination for Surgical Technologists to become a Certified Surgical Technologist (CST).
- The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.
- Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery and assist surgeons during operations.
- Clinical facilities may prohibit students who do not have an assigned social security number from participating in clinical experiences which are a mandatory component of the curriculum.
If other placement options are not available, the student would need to withdraw from that semester and would not be able to progress in the program. These factors must be taken into consideration prior to pursuing admission to the program.
- One cohort is available each year: Spring
- Students attend classes 8:00 a.m. – 4:00 p.m. three to four days per week.
Attendance is mandatory for all courses and labs.

Selection Criteria, Selection Process and Admissions

- **All application requirements must be satisfied by the closing of the application window.**
- 12 students admitted.
- Up to three (3) seats may be given to individuals employed by our community partner, BayCare.
- When the number of eligible applicants exceeds program availability, selective criteria are used to determine which applicants are admitted.
This criterion is based on a point system using the pre-entry GPA and completion of pre-entry, general education, and support coursework. Students will be considered using a point system based on health program GPA, and the number of general education and support coursework credits completed.
- **25 points** may be awarded based on the number of health program pre-entry, general education and support coursework credits completed.
- **40 points** may be awarded based on the health program GPA earned from pre-entry coursework, excluding Computer/Information Literacy.

If you are admitted, you will need to complete the following pre-enrollment requirements to maintain eligible status.

- Complete the Notice of Intent survey by the date indicated in the admission email.
- Successfully pass a background check and drug screening by the date indicated in the admission email.
- Complete the Health Education Program orientation on the date indicated in the admission email.
- Complete any required immunizations.

Health, Drug Screening and Background Check requirements are mandated by the clinical affiliate sites. Failure to comply with the Clinical Requirements may result in removal from the clinical courses and removal from the Surgical Services program.

If you are not admitted, please discuss admissions requirements with an Academic Advisor and consider reapplying during a future application cycle.
