

TASER International, would like to invite all local law enforcement agencies to attend a presentation on some of our new products, including the much anticipated XREP wireless and finless rounds, our new TASER X12 dedicated less-lethal shotgun, the TASER Shockwave area denial system, the new Controlled Digital Power Magazine (CDPM), and the just released TASER X3.

During this approximately 90 minute presentation, we will be demonstrating these products which will give you the opportunity to see them first hand. There is absolutely no cost to attend! We look forward to you bringing anyone from your agency that may have interest in these products.”
