

St. Petersburg College's College of Education offers

*a series of online courses
for Exceptional Student
Education (ESE) teachers to
meet state requirements for
an autism endorsement.*

The courses cover:

- The nature and diagnosis of autism, with associated field experience
- Effective learning environments for students with autism, with associated field experience
- Communication and assistive technology for students with autism

Assessment is infused throughout all courses.

Courses developed by subject-area specialists based on research and best practices with input from teachers and families of children with autism.

All participants must be approved by their districts.
