\*As of Fall 1999, the Legislature mandated that College Preparatory Courses would be calculated for funding using the same formula as college credit courses (SSH=number of students x course credit hours: FTE=SSH/40). For comparison purposes, these tables have been converted to show College Preparatory courses using that formula rather than as non-credit courses. Also, for comparison purposes weighting for Project Independence and Dual Credit was removed for previous years.

\*\*There is no funding for Lifelong Learning.

\*\*\*Historical Overview shows funded FTE prior to 1999 including weights for Project Independence and Dual Credit and ESH College Preparatory calculations.
