We invite you to join the SPC Downtown/Midtown Book Club!

Visit the Downtown's Computer Lab (255) or Midtown's Main Office and pick up your free copy of *The Last Lecture*.

You will need to complete a Book Club Agreement form in order to receive a free copy of the book, and to participate in the discussion.

When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—"Really Achieving Your Childhood Dreams"—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about *living*.

After reading the book, join us for the movie showing and book discussion led by Dr. Jerry Cade!
