

College of Nursing
Associate Degree Program

END OF PROGRAM STUDENT LEARNING OUTCOMES

At the completion of the program, the student will be able to:

1. Provide compassionate, unbiased, patient-centered care for patients and families across the lifespan.
2. Demonstrate safe, evidence-based care for complex patients in a variety of health care settings.
3. Collaborate effectively with members of the interprofessional health care team to promote optimal clinical outcomes
4. Utilized clinical judgment skills based on the best current evidence to make appropriate clinical decisions to ensure patient safety.
5. Demonstrate the legal standards and ethical principles essential for the practice of professional nursing.
