2018 PCS seniors with standard diplomas enrolled at SPC in 2018-19

Why

St. Petersburg College

1

LOW TUITION – HIGH WAGES

SPC doesn't just save you money, we help you make money. Our tuition is half that of state universities. That means your scholarships and hard-earned dollars go further at SPC. And our graduates are ranked #1 in Florida for earning the highest entry wages.

2

TAILORED SUPPORT

At SPC, you get personalized support in a timely manner. Whether it's choosing the right classes, finding the best FREE tutor or landing your dream job, we go the extra mile to see you succeed. Our guided academic pathways and free career and academic advising keep you on track to your end goal.

3

GRADUATES GET JOBS

Our graduates have a 90% placement rate thanks to our career-focused programs. At SPC, we train you in high-demand fields so you gain the technical skills that employers want. Our training gets you into a career, and our degrees help you advance.

4

ACCREDITATION

Accreditation by the Southern Association of Colleges and Schools Commission on Colleges assures your credits from SPC transfer to any other regionally-accredited college or university. Our Associate in Arts degree assures your admission as a junior to one of the state's 12 public universities. An additional 21 programs are programmatically accredited by their corresponding national accrediting agency.

5

EXCELLENCE IN EDUCATION

Get a taste of the real world through hands-on activities right in your classroom, or explore our programs that can literally take you around the world, like Study Abroad and Model United Nations. With our internships, you'll be ready to hit the ground running in your career. We also offer dozens of clubs, so no matter your interests, you'll find your place at SPC.

6

SCHOLARSHIPS & FINANCIAL AID

Each year, SPC awards about \$6 million in scholarships for academic excellence, as well as talent and achievement in a variety of areas, such as the arts or athletics. Scholarships also include Bright Futures Scholarships, Study Abroad, military and private scholarships. Best of all, you don't have to pay them back. SPC also accepts financial assistance for those who qualify.

7

ONLINE PROGRAMS

We are the #1 provider of online education in the Florida College System, offering more than 40 programs fully online. Our nationally-recognized program offers hundreds of online college courses in dozens of majors – plus online student support services at your fingertips.

8

INDUSTRY-BASED PROGRAMS

At SPC, we offer dozens of industry-recognized certifications, more than 100 academic programs and 20+ bachelor's degrees in clearly defined pathways to get you to the finish line sooner. St. Petersburg College degree programs are tailored to meet the needs of local industries, so you'll be job-ready at graduation. Our programs also prepare you for the next level of study at universities.

9

FREE COLLEGE CREDIT

St. Petersburg College wants to help you finish your degree. We offer many ways to earn up to 45 college credits for your mastery of subjects, experience, military training, previous education or industry certification.

10

CAREER & ACADEMIC COMMUNITIES

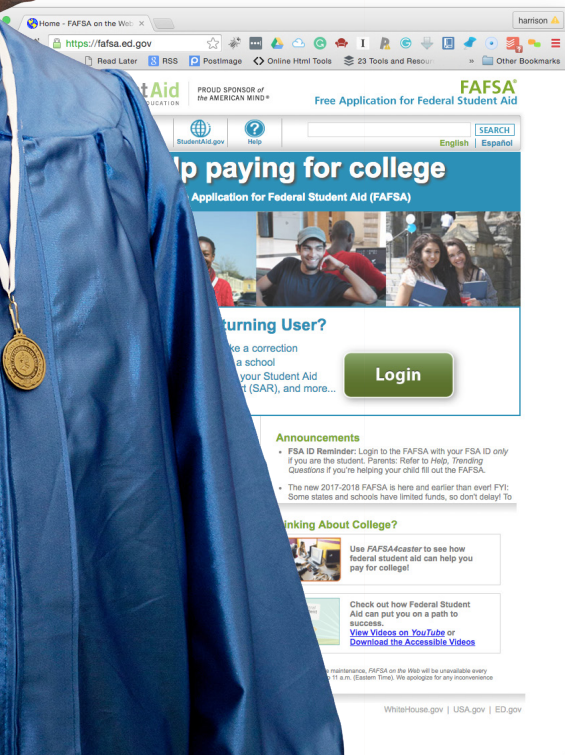

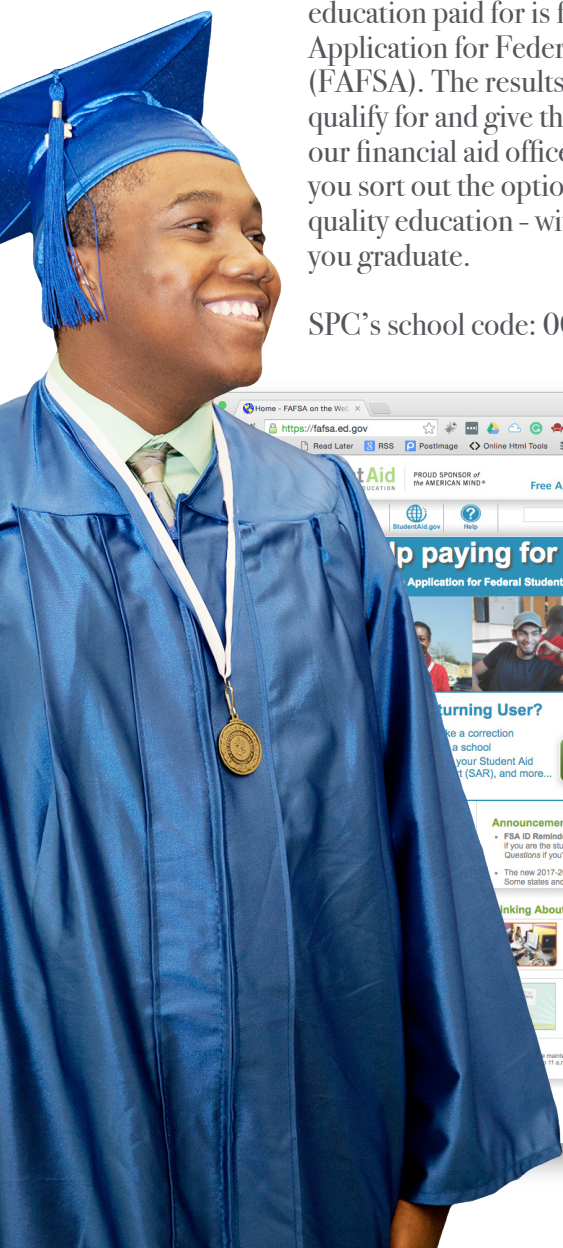

Our degree offerings are organized within Career and Academic Communities to connect your educational journey with your intended career outcome. Our associate and bachelor's degree communities include the integration of stackable certificates, industry certifications and internships and practicums, where you'll gain real-world experience to prepare you for the workforce.

PAYING FOR COLLEGE

It all started with the FAFSA

The first step in getting your college education paid for is filling out the Free Application for Federal Student Aid (FAFSA). The results define what you qualify for and give the professionals in our financial aid office the tools to help you sort out the options of paying for a quality education - with less debt after you graduate.

SPC's school code: 001528

GRANTS

Grants are gifts to study that do not require repayment. They're based on financial need and come from SPC, the state or federal government. Grants do not need to be repaid.

LOANS

You DO need to repay college loans. For that reason, we encourage you to look at all your other options first and borrow only what you need.

INTEREST-FREE PAYMENT PLAN

Split your tuition bill up into easier monthly payments. No qualifying means everyone's approved. And ZERO interest is hard to beat.

FREE COLLEGE CREDIT

You may already have the life experience, military training, industry certification, mastery of subjects or previous education to earn up to 45 college credits for free.

GI BILL

We're experts in helping veterans navigate and utilize their GI Bill benefits. In fact, for the past five years, SPC has been named a Best for Vets College by Military Times for our dedication to helping active duty service members, veterans and their dependents achieve their educational goals.

PAYING FOR COLLEGE

SCHOLARSHIPS

St. Petersburg College awards about \$6 million in scholarships each year to deserving students. Scholarships include:

SPC INSTITUTIONAL SCHOLARSHIPS

Institutional scholarships are provided through the college or individual departments. Scholarships reward achievements and abilities such as athletics, performing arts, visual arts, and academic performance, just to name a few. Many are based on your financial need.

- **Johnnie Ruth Clarke Scholarship**
This need-based scholarship honors the legacy of local educator and humanitarian Dr. Johnnie Ruth Clarke and is awarded to Pinellas County high school seniors with a 3.0 GPA or higher.
- **Presidential Scholarship**
Pinellas County high school seniors with a 3.5 GPA or higher can qualify for this full-tuition scholarship.

FLORIDA BRIGHT FUTURES

These lottery-funded scholarships reward Florida high school graduates for high academic achievement. This scholarship program awards a fixed amount per credit hour for the fall and spring terms each academic year.

SPC FOUNDATION SCHOLARSHIPS

Each year, the St. Petersburg College Foundation awards SPC students close to \$2 million in scholarships through private gifts from generous individuals, community groups and businesses. You can earn these scholarships for academic achievement and community involvement, among other factors, and not all scholarships are based on financial need.

STUDY ABROAD SCHOLARSHIPS

Want the invaluable experience of earning college credit while traveling the world? We have Study Abroad scholarships available each year!

PRIVATE DONOR SCHOLARSHIPS

Private donor scholarships are offered by outside organizations, which determine what a scholarship will cover. Some scholarships cover the entire costs of tuition, fees, and books; most cover a portion of these costs.

CAREER AND ACADEMIC COMMUNITIES

St. Petersburg College (SPC) alumni rank first in Florida for possessing the most valuable job skills. We offer more than 110 degree and certificate programs, including many high-demand, high-skill, industry-recognized workforce certifications. Our career-focused Associate in Science degrees and certificates are fine-tuned by industry experts to give you the skills that today's employers want.

With our Associate in Arts degree, you'll be ready to transfer to a university or earn a bachelor's degree at SPC. Our new Pathways Program gives you a clear roadmap to success to ensure you are taking the right courses - in the right sequence - to meet your goals. And with tuition at about half the cost of state universities, you'll spend less to earn more.

ARTS, HUMANITIES, AND DESIGN

St. Petersburg College has built a long tradition of educating students in all areas of the arts, including studio art, photography, digital and graphic arts, theater, dance, music, and the music and entertainment industry.

BUSINESS

A business degree from St. Petersburg College can open doors and provide an edge in the global business community. We design our business programs with input from local business leaders who know what it takes to succeed.

COMMUNICATIONS

Effective communication skills are critical in today's fast-paced world. Whether you're looking to transfer to a university or take a writing or film class, SPC offers a variety of communications classes to meet your needs.

EDUCATION

St. Petersburg College offers one of Florida's exemplary teacher preparation programs through its College of Education, where our bachelor's degrees prepare you to become a Florida Certified teacher for grades K-12.

CAREER AND ACADEMIC COMMUNITIES

ENGINEERING, MANUFACTURING & BUILDING ARTS

These programs provide cutting-edge skills and industry certifications needed for jobs in growing fields. SPC works closely with community partners to give you opportunities to take your learning from the classroom to your job.

HEALTH SCIENCES AND VETERINARY TECHNOLOGY

If you've ever received health care for yourself or a pet in Pinellas County, chances are you were cared for by a graduate of St. Petersburg College. SPC has been training students for health care jobs in Pinellas County for decades.

PUBLIC SAFETY, PUBLIC POLICY AND LEGAL STUDIES

SPC gives you the opportunity to be of service to your community, state or nation. Whether you seek a career in government, public service or the legal profession, our Public Safety, Public Policy and Legal Studies programs are taught by highly qualified professionals and provide valuable internship opportunities.

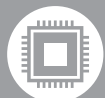

SCIENCE AND MATHEMATICS

SPC's Science and Mathematics community serves every student through our degree programs, as well as through the electives we offer. Our classes serve as the building blocks to any associate or bachelor's degree.

SOCIAL & BEHAVIORAL SCIENCES & HUMAN SERVICES

We are committed to preparing students to be informed, responsible citizens. In our Social & Behavioral Sciences community, you will gain a solid foundation in critical thinking, problem-solving, and intercultural communications.

TECHNOLOGY

With degrees and certificates in computer programming, cybersecurity, computer networking, web development and technology management, St. Petersburg College offers degrees that prepare you for the best technology jobs.

ARTS, HUMANITIES, AND DESIGN

Digital arts and media technologies have changed how we learn, entertain ourselves and interact with each other. Discover how our degrees can help turn your passion for capturing sights and sounds into an exciting career. Whether you want to be in the spotlight as a performer or work behind the scenes in production, St. Petersburg College's Music Industry Recording Arts Program will help you develop real world skills for today's music industry. Immerse yourself in the arts through our classes in pottery, sculpture and painting. At SPC, you can explore your creative side or get ready for your four-year major.

Our small classes put you on the big stage. As a performer and artist, you'll enjoy the latest facilities, where our talented professors instruct and mentor you, and concert halls and theaters where you can shine. SPC boasts a variety of state-of-the-art performance venues, exhibit galleries and museums where your talents take center stage.

FUSE PROGRAM TRANSFER PLANS

Select Associate in Arts transfer plans may be offered through the FUSE program, our partnership with the University of South Florida System. The program guarantees admission into certain bachelor's degree programs for eligible students who complete their associate degree within 3 years at St. Petersburg College. FUSE students are granted access to USF System activities while a student at SPC. Once you apply, you will be able to meet with an dedicated FUSE advisor to determine eligibility.

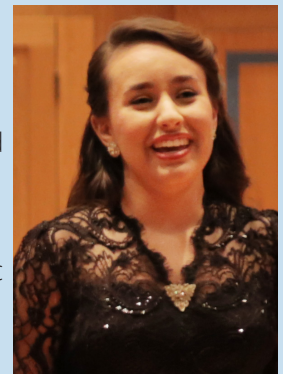

LEARN MORE AT SPCOLLEGE.EDU/ARTS

Our small classes put you on the big stage. Our arts and entertainment programs have a rich tradition of developing talented graduates. As a performer and artist, you'll enjoy state-of-the-art facilities where our talented professors instruct and mentor you, and concert halls and theaters where you can shine. Take our classes to prepare for a bachelor's degree or earn an associate degree with an emphasis on digital arts or music technology.

OTHERS LIKE YOU

[RACHAEL RODRIGUEZ, SPC GRADUATE]

Rachel Rodriguez's operatic voice soared from the Music Center stage at St. Petersburg College, a place she credits with turning her into a polished musician. The coloratura soprano studied at SPC under Dr. Marilyn Michael and is pursuing her Bachelor of Music Performance with emphasis in voice from Southeastern University.

Rachel is one of several SPC students who performed in Opera at The Dali, a collaboration between The Dali Museum and St. Petersburg College, which introduces audiences to emerging opera artists through dynamic, 20-minute performances on the third Thursday of every month.

“ SPC is special to me because of the relationships I've formed with my instructors and other colleagues in my field of study. My voice coach at SPC inspired me to push myself beyond what I thought I could do and always created a serious, but loving and creative, learning atmosphere in her studio. ”

DEGREES & TRAINING

ARTS, HUMANITIES AND DESIGN CAREER

The arts and entertainment field is a global, multi-billion dollar industry with a need for individuals with knowledge and skills focused on the business side of the creative enterprise.

FACILITIES

We believe students should learn in the same environment where they will eventually earn. At SPC you will gain job-ready skills with industry standard technology in Avid-certified recording studios, fully functional broadcast and TV sound stages and control rooms, and perform in venues where nationally known acts entertain daily.

BUSINESS

At SPC, you can pitch your business idea to successful entrepreneurs and investors and compete for cash prizes. Many of our students have launched their business concepts, and they have all gained invaluable experience in promoting their business ideas. SPC business students can apply for a variety of scholarships through the St. Petersburg College Foundation, including:

- \$700 per term scholarship for students enrolled in the Insurance Services track in our Associate in Science Business Administration degree.
- \$500 per year scholarship for business students.
- Take your first hospitality class on us. To introduce students to this program, we offer the first class FREE. Funded by the Pinellas County Hotel/Motel Association, this scholarship pays tuition for the first three-credit Hospitality & Tourism class

DEGREES & TRAINING

CAREER OUTLOOK

Every business needs talented managers and administrators to help it succeed. Today's complex business environment requires that you know how to analyze data and solve business problems quickly. Our programs provide a foundation in economics, accounting, finance, management, marketing, business law, statistics and operations management to help you stand out in today's job market.

At around \$65,000 per year, the 2014 median wage for business and financial occupations was almost twice that of all other occupations.

YOU DESERVE OPTIONS

Our bachelor's degrees prepare you to go right into the workforce or to continue your education by pursuing a higher degree. And depending on your interests, you can customize your career path by choosing from a variety of focused tracks like Project Management, Entrepreneurship, Sustainability Management, Finance, Marketing, and more.

FLEXIBILITY IS KEY

You can study online or on campus and customize your learning path to meet your needs. You can start with a certificate to help kick start your career and add higher level courses in your area of focus to complete an associate or bachelor's degree.

PROGRAM HIGHLIGHTS

- Our Project Management track is one of only three in Florida's state college system.
- Award-winning Capstone courses and internships give you real world business experience.
- Entrepreneurship students participate in Business Plan Competition with more than \$10,000 in awards.

SUPPLY CHAIN MANAGEMENT

At SPC, you can earn an 18-credit-hour certificate in Supply Chain Management or take short-term training that leads to industry certifications.

Our certificate prepares you to work in any aspect of supply chain, from warehousing to distribution to customer service, and helps you develop and sharpen the knowledge necessary to formulate solutions.

Our LINCS Supply Chain Management program offers eight entry- to mid-level courses that lead to industry certifications through the Council of Supply Chain Professionals (CSCMP). These six-week courses cover specific aspects of supply chain operations including planning and forecasting, customer service, inventory management, purchasing, product assembly, warehousing and storage operations and transportation operations.

COMMUNICATIONS

Start at SPC and earn a bachelor's degree in Mass Communications at a university to prepare for a public relations or media career. Effective communication skills are critical in today's fast-paced world. Whether you're looking to transfer to a university, take a writing or film class, or earn an associate degree in Sign Language Interpretation, SPC offers a variety of communication classes to meet your needs.

As an SPC student, you can take part in exciting and educational trips around the world through our Study Abroad programs. Our communications faculty teach literature, composition and foreign language classes in locations like New Zealand, Australia, Germany, China and Spain.

FUSE students are granted access to USF System activities while a student at SPC. Once you apply, you will be able to meet with an dedicated FUSE advisor to determine eligibility.

EARN CREDITS WHILE TRAVELING THE WORLD

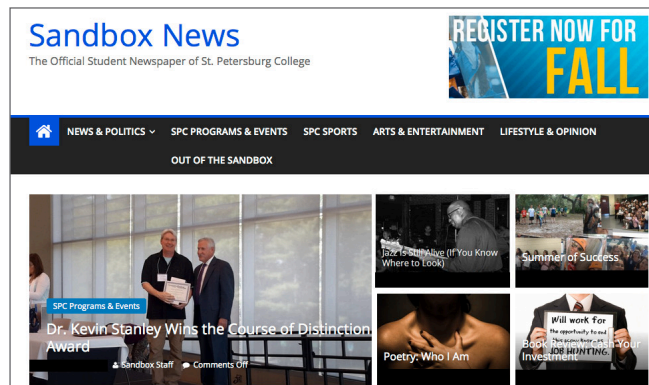

Communications faculty teach a variety of literature and foreign language classes in exciting locations around the globe. Scholarships are available. Learn more at www.spcollege.edu/studyabroad.

THE SANDBOX

The St. Petersburg College student newspaper *The Sandbox News* rocked the student awards in the Florida Society of News Editors (FSNE) Journalism contest in 2016 by winning 11 out of 24 student awards – all while vying against large universities like the University of South Florida, University of Florida and Florida State University.

The Sandbox is an online newspaper written by students, including dedicated staff writers from the Mass Communications program. Volunteers make up the majority of writers, creating a diverse writing atmosphere.

SPC's Mass Communications faculty recognize the role the student newspaper plays in providing students with hands-on learning experiences that prepare them for a variety of media careers.

DEGREES & TRAINING

OTHERS LIKE YOU

[DENIANN GRANT, SPC GRADUATE]

A former St. Petersburg College graduate and Johnnie Ruth Clarke scholar, Deniann Grant earned her A.A. Degree from SPC focusing on Communications. Afterwards, she transferred to the University of Florida, where she earned a B.A. in English and History. Since then, she has taught first grade in Connecticut for Teach for America, the national teacher corps committed to expanding educational opportunity for all children.

Grant works for Teach for America as a Manager in Teacher Leadership Development in Miami-Dade. In that role, she advises teachers and collects data on the effectiveness of their efforts.

Looking back, Grant credits the leadership training she received while a student at St. Petersburg College to much of her success today.

“Because I had people believe in me at SPC, I was always involved in leadership training,” she said. “When I think about my identity and how I interact with people and other professionals, I realize that I learned the gist of that at SPC.”

INTERNSHIP OPPORTUNITIES

Internships help you connect academic theory to real-world skills and can provide valuable work experience. St. Petersburg College connects students with local employers like:

- Telemundo Tampa, a local Spanish-speaking television station
- Clear Channel Broadcasting's 970 WFLA Radio
- SPC's Marketing and Strategic Communications department

Teaching is more than a job; it's a calling.

Today's teachers work in environments with high standards of performance. Choosing how you prepare yourself to meet the demands and rewards of teaching is an important career decision. St. Petersburg College's small class sizes, extensive school-based internships with veteran educators and personal attention from faculty advisors give our graduates confidence as they enter the job market.

A DEGREE WITH A JOB GUARANTEE

Our Elite Educator Program – a partnership between St. Petersburg College and Pinellas County Schools – is changing the way teachers learn to teach. Students who successfully complete both the program and the paid internship during their final semester are guaranteed a job with Pinellas County Schools.

CONTINUING EDUCATION

Teachers who continue to expand their knowledge and professional skills are better equipped to serve their students, make themselves more marketable and increase their earning potential. SPC offers a variety of continuing education opportunities for teachers:

- Exceptional Student Education coursework
- Autism courses leading to endorsement
- Career and Vocational District Certification
- Recertification
- Temporary to Professional Certification

97% CONTINUING SUCCESS

Since 2007, 97% of our special education graduates have found jobs in the field, are continued their education or are serving in the military.

FUNDING YOUR EDUCATION

SPC can help you pay for your education through Foundation Scholarships and the Florida Fund for Minority Teachers Scholarship.

TRACEY STALEY : PINELLAS EDUCATOR OF THE YEAR

Tracy Staley earned her bachelor's degree in education at St. Petersburg College and won the Pinellas Educator of the Year award in 2013, just five years after graduating. While a science and math teacher at Ponce de Leon Elementary School in Clearwater, Staley was awarded a grant to fund a water-conserving garden her students planted on campus, using rain barrels for irrigation. She is currently an elementary science coach for Pinellas County Schools. She earned a master's degree at the University of Florida.

ENGINEERING, MANUFACTURING, AND BUILDING ARTS

At SPC's Collaborative Center for Emerging Technologies, you'll get hands-on training in an open manufacturing learning facility. Our engineering technology programs give you the skills to become a go-to problem solver and the precise technical know-how needed in today's advanced manufacturing operations.

SPC works closely with our community partners to give you opportunities to take your learning from the classroom to your job. Florida ranks among the top ten states for manufacturing and is home to more than 18,200 manufacturing companies. SPC offers industry certifications and associate degree programs with embedded certificates that not only make you a specialist, but can get you into this field quickly.

CAREER OUTLOOK

Pinellas has the second largest base of manufacturing employment in Florida, one of the top ten states for manufacturing and home to over 18,000 manufacturing companies. As these firms head to Florida, they bring with them a need for highly-skilled employees. Local manufacturers hire many of our graduates for work in areas such as aerospace, defense and the production of medical devices.

HIGH-TECH FACILITIES

St. Petersburg College's Collaborative Center for Emerging Technologies is an open-manufacturing learning facility. It includes additive manufacturing, rapid prototyping, quality measurement, electronic instrumentation, reverse engineering and a clean room. SPC's SolidWorks Design Center, the first of its kind in Florida, makes use of Computer Numerical Control (CNC) equipment, 3-D scanners and 3-D printers.

HEALTH SCIENCES AND VETERINARY TECHNOLOGY

SPC has been training students for health care jobs in Pinellas County for decades. Our specialized health care programs train you in some of the fastest growing careers in Florida.

At SPC, we offer first-rate facilities that prepare you for what you'll see on the job. We offer a patient-care clinic for dental hygiene, an \$11-million building for the College of Orthotics and Prosthetics, a multi-million dollar Simulation Center for Excellence in Nursing, and the 32,000-square-foot Veterinary Technology Center located next to Pinellas County Animal Services.

DEGREES & TRAINING

Looking for a high-paying career where you can make a difference in the world? At St. Petersburg College, our health science programs prepare you to enter the fastest-growing healthcare careers in the nation. Start making a difference today.

BIOTECHNOLOGY LABORATORY TECHNOLOGY

Our Associate in Science degree in Biotechnology Laboratory Technology gives you the hands-on skills to join one of the hottest industries in the nation as a biological technician, where you'll assist in laboratories by operating and maintaining instruments and conducting and observing experiments.

FUNERAL SERVICES

Our Associate in Science degree in Funeral Services, accredited by the American Board of Funeral Service Education, prepares you to become a licensed funeral director or embalmer. Funeral professionals from other states can become certified in Florida by earning our Funeral Arts Certificate and passing the Florida Board Exam for Funeral Directing. This program is offered completely online.

EMERGENCY MEDICAL SERVICES

Our accredited programs are part of a progression of Emergency Medical Services education and licensing, beginning with our Emergency Medical Technician diploma, which transfers to our Paramedic Certificate, which has had a 95% placement rate since August, 2009. Both of these programs prepare you for state or national licensing exams and articulate to our Associate in Science degree in Emergency Medical Services.

PHYSICAL THERAPIST ASSISTANT

Our accredited Associate in Science degree prepares you for the national licensing exam through the Federation of State Boards of Physical Therapy. Among our graduates from 2012-2014, 100% passed the licensing exam, and 100% are employed.

DENTAL HYGIENE

SPC's Mary R. Grizzle Dental Hygiene Program, accredited by the American Dental Association, produces graduates who excel on licensing exams and find jobs in the field. Our patient-care clinic provides students with opportunities for hands-on learning. Our Associate in Science degree transfers to our Bachelor of Applied Science in Dental Hygiene, which opens career opportunities in management, education and sales.

RADIOGRAPHY

Our accredited program prepares you for the entry-level certification exam offered by the American Registry of Radiologic Technologists. In fact, since the radiography program began in 1981, nearly all of our graduates have passed the national certification exam on their first attempts, and nearly all of our graduates have found work in their field within six months of graduating.

DEGREES & TRAINING

HEALTH INFORMATION TECHNOLOGY

Our accredited Health Information Technology Associate in Science degree prepares you to take the national exam to become a Registered Health Information Technician (RHIT) through the American Health Information Management Association. Our Medical Coder Certificate prepares you to take the Certified Coding Associate (CCA) credentialing exam through the American Health Information Management Association (AHIMA).

HEALTH SCIENCES

Our Associate in Science degree in Health Sciences, with an embedded certificate in Health Care Services, offers specific focus areas that will make you a specialist in your field.

HEALTH SERVICES ADMINISTRATION

A bachelor's degree in Health Services Administration prepares you for career advancement or entry-level managerial positions. This online degree offers concentrations in:

- Management
- Public Relations and Marketing
- Compliance and Security
- Human Services
- Respiratory Care

All Health Services Administration classes are offered online and can be taken in eight-week sessions.

NURSING

Our Associate in Science degree program trains you to become a registered nurse, and our online Bachelor of Science in Nursing can take your nursing career to the next level. A nursing degree from SPC's accredited programs will prepare you for a high-demand, high-wage career where you can make a difference in people's lives. Our Simulation Center for Excellence in Nursing Education (SCENE) is a multi-million dollar state-of-the-art lab at the Health Education Center, where students can master nursing skills in a realistic, hands-on setting.

ORTHOTICS AND PROSTHETICS

SPC's accredited two-year Associate in Science in Orthotics and Prosthetics Technology combines lectures and extensive hands-on labs at our \$11 million J.E. Hanger College of Orthotics and Prosthetics, where you'll learn to fabricate artificial limbs and orthopedic braces. You'll be prepared to take the American Board for Certification in Orthotics, Prosthetics & Pedorthics Technician Certification Exams.

RESPIRATORY CARE

Our Associate in Science degree prepares you for the advanced practitioners' exam to become a Registered Respiratory Therapist through the National Board for Respiratory Care and transfers to the online bachelor's degree in Health Services Administration with a concentration in Respiratory Care. Since the Respiratory Care program began at SPC in 1971, employment for our

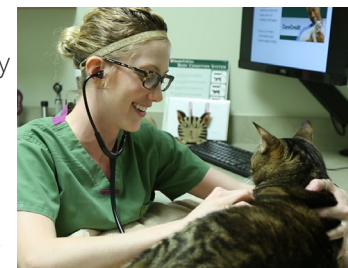

graduates has remained at nearly 100%.

VETERINARY TECHNOLOGY

Put your love of animals to work for you by earning a Veterinary Technology degree from St. Petersburg College. You can train at our state-of-the-art \$11 million Veterinary Technology Center in Largo, which features 32,000 square feet of classrooms, labs, surgery and X-ray suites, kennels and offices. We're located next to Pinellas County Animal Services, so students gain valuable work experience while giving county services a volunteer boost.

If you're working at a practice in another area, our online associate degree program integrates your hard-earned experience. Our online bachelor's degree is one of only 24 in the country and can help you move into management, teaching or research.

PUBLIC SAFETY, PUBLIC POLICY, AND LEGAL STUDIES

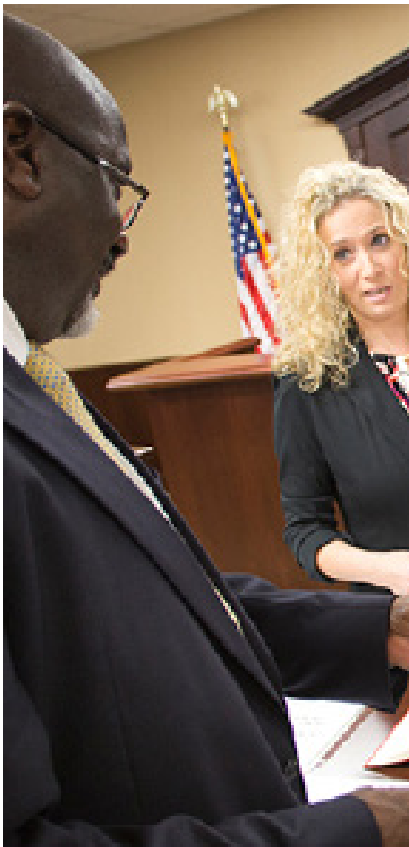

The Public Safety, Public Policy and Legal Studies Department hosts the Applied Ethics Institute, which prepares SPC students to be responsible and ethical citizens as well as informed and active community participants. Students and groups have earned thousands of volunteer hours through the Institute's involvement in service organizations throughout Pinellas County, including All Children's Hospital, Habitat for Humanity, and the Suncoast Seabird Sanctuary.

The Public Policy and Administration facilities at the Seminole Campus include a 70-seat tiered classroom modeled after a city council chamber to give public policy students an authentic experience. The room also serves as a lab for a variety of public policy, administration, and engagement activities, and as a location for SPC's award-winning Model United Nations program.

These courses can also lead to upper-level degrees in medicine, dentistry and veterinary technology.

OTHERS LIKE YOU

[ERIN BAKER: SPC GRADUATE]

With her bachelor's degree in biology from St. Petersburg College in hand, Erin Baker is now a doctoral student in the Integrative Life Sciences Program at the University of Georgia.

She credits her experience at St. Petersburg College as helping to prepare her for pursuing a higher degree.

"It is highly competitive to move straight into a Ph.D. without doing a master's," said Erin, who credits her success to extensive research through volunteer work, undergraduate research coursework and an internship at the U.S. Geological Survey office in St. Petersburg.

“SPC has helped me become a leader in my field by giving me ample opportunities to succeed and set myself apart from my peers. SPC prepared me for my Ph.D. in a multitude of ways, but the most important was providing me with opportunities to conduct research and fulfill internships that I gained through faculty connections.”

[RAYFORD DENNIS: SPC GRADUATE]

Rayford Dennis grew up in Washington, D.C. and served eight years in the Navy as a hospital corpsman and medic. After receiving an honorable discharge, he struggled with civilian life after his time in the military, and was living in a homeless shelter when he enrolled at SPC in 2009.

"I was looking not only to enhance my education, but also for structure and guidance," he said. "That is exactly what I found."

In 2013, Dennis earned an Associate in Arts Degree, along with an Associate of Science in Human Services with a concentration in substance abuse. He transferred to USF's Social Work program, where he graduated in summer 2016. He currently works at the Veteran's Administration, assisting homeless veterans. Dennis credits SPC faculty for keeping him moving, even when he thought he couldn't go on.

"They were there every step of the way," he said. "Without all the encouragement and sincere direction that SPC provided, my journey back to life would not have been possible. Thank you, SPC!"

FUSE PROGRAM TRANSFER PLANS

Select Associate in Arts transfer plans may be offered through the FUSE program, our partnership with the University of South Florida System. The program guarantees admission into certain bachelor's degree programs for eligible students who complete their associate degree within three years at St. Petersburg College. FUSE students are granted access to USF System activities while a student at SPC. Once you apply, you will be able to meet with an dedicated FUSE advisor to determine eligibility.

DEGREES & TRAINING

HUMAN SERVICES CAREER OUTLOOK

A degree or certificate in Human Services provides a variety of opportunities to help others in the fields of mental health, addiction, counseling, social work, sociology and youth development. Our certificates can get you working in an entry-level job quickly, but they are also building blocks toward higher degrees, such as our Associate in Science degree in Social and Human Services. All of our Associate in Science degrees transfer to the bachelor's degree in Health Services Administration. We offer many internship opportunities that will help you build your resume, apply your knowledge in real-world situations and make connections to aid your future job search.

MEDIAN SALARY IN TAMPA BAY AREA

Social and Human Service Assistants	\$28,900
Health Care Support Workers	\$31,900

CENTER FOR CIVIC LEARNING

The Center for Civic Learning and Community Engagement provides support and encourages students to expand their knowledge and actively participate in meaningful civic actions and experiences, which better prepares them for a lifetime of service to our democratic society.

94%
CONTINUING SUCCESS

Since 2009, 94% of our A.S. graduates have found jobs in their field, continued their education or joined the military.

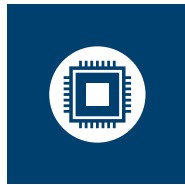

MODEL UNITED NATIONS

The Model U.N. program at St. Petersburg College offers courses and opportunities to train students in real-world diplomacy and provide opportunities to learn more about international relations and organizations. SPC's Model U.N. won Outstanding Delegation at the National Model United Nations Conference in New York City in 2016. This is the highest award given at the conference, which hosted more than 3,000 delegates in 2016, and puts St. Petersburg College's Model UN team in the top 10 percent of teams in the world.

TECHNOLOGY

St. Petersburg College offers degrees that prepare you for the best technology jobs. Here is where you'll find the right program to jumpstart or advance your career. As part of the networking, security and programming programs you take at SPC, your exam certifications fees in networking, programming and security are covered. These include Cisco, Java, Linux, Microsoft, CompTIA and Java certifications.

Employers love how well we prepare our technology program graduates. Nearly all the companies we asked, 97% of them would hire another SPC graduate, who they say bring a passion for technology and a thirst to continue learning to their businesses.

OTHERS LIKE YOU

[GINY KAPILI, SPC GRADUATE]

“ I like the flexibility that St. Petersburg College's online courses provide and the small class sizes that allow for more interaction between the students and the professors. ”

DEGREES & TRAINING

87% CONTINUING SUCCESS

Since 2009, 87% of SPC graduates have found jobs in the field, are continuing their education or serving in the military.

MEDIAN SALARY IN TAMPA BAY AREA

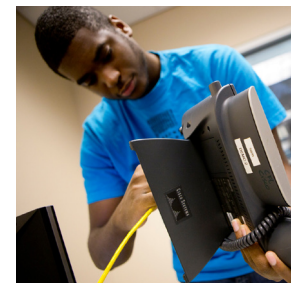

Source: U.S. Bureau of Labor Statistics and Florida Department of Economic Opportunity

CAREER OUTLOOK

Employment for computer and information technology occupations is projected to grow 12% nationally through 2024, faster than the average for all occupations. These occupations will add about 488,500 new jobs to the economy, for a total of 4.4 million jobs.

Occupations with the highest expected growth in Florida include computer systems analysts, software application developers and computer user support specialists. Best of all, you can train for all of these careers at SPC.

The median annual wage for computer and information technology occupations was \$79,390 in May 2014, which was higher than the median annual wage for all occupations of \$35,540.

AWARD-WINNING

The Tampa Bay Technology Forum (TBTF) recently named the collaborative career development program, Exploratory Lab Boot Camp, as Best Student Program of the Year for 2015. The free, 70-hour program is a joint venture between St. Petersburg College, the University of South Florida St. Petersburg, TechData, Valpak, Agile Thought and TBTF. Among the 43 graduates who took part, 78% of them were hired as interns or new employees by Tech Data, Agile Thought, Raymond James, Ernst & Young and a local start-up.

O*NET INTEREST PROFILER SHORT FORM

Read the 60 work activities below. Place a check in the box by the activities you would like to do. **Do not** think about how much education/training is needed or how much money you will make! Count the number of checks for each shaded section and write that total in the box to the right of each section. These are your scores for each interest area.

<input type="checkbox"/> Build kitchen cabinets <input type="checkbox"/> Lay brick or tile <input type="checkbox"/> Repair household appliances <input type="checkbox"/> Raise fish in a fish hatchery <input type="checkbox"/> Assemble electronic parts	<input type="checkbox"/> Drive a truck to deliver packages to offices and homes <input type="checkbox"/> Test the quality of parts before shipment <input type="checkbox"/> Repair and install locks <input type="checkbox"/> Set up and operate machines to make products <input type="checkbox"/> Put out forest fires	Total <input style="width: 50px; height: 30px;" type="text"/>
Realistic checks =		
<input type="checkbox"/> Develop a new medicine <input type="checkbox"/> Study ways to reduce water pollution <input type="checkbox"/> Conduct chemical experiments <input type="checkbox"/> Study the movement of planets <input type="checkbox"/> Examine blood samples using a microscope	<input type="checkbox"/> Investigate the cause of a fire <input type="checkbox"/> Develop a way to better predict the weather <input type="checkbox"/> Work in a biology lab <input type="checkbox"/> Invent a replacement for sugar <input type="checkbox"/> Do laboratory tests to identify diseases	Total <input style="width: 50px; height: 30px;" type="text"/>
Investigative checks =		
<input type="checkbox"/> Write books or plays <input type="checkbox"/> Play a musical instrument <input type="checkbox"/> Compose or arrange music <input type="checkbox"/> Draw pictures <input type="checkbox"/> Create special effects for movies	<input type="checkbox"/> Paint sets for plays <input type="checkbox"/> Write scripts for movies or television shows <input type="checkbox"/> Perform jazz or tap dance <input type="checkbox"/> Sing in a band <input type="checkbox"/> Edit movies	Total <input style="width: 50px; height: 30px;" type="text"/>
Artistic checks =		
<input type="checkbox"/> Teach an individual an exercise routine <input type="checkbox"/> Help people with personal or emotional problems <input type="checkbox"/> Give career guidance to people <input type="checkbox"/> Perform rehabilitation therapy <input type="checkbox"/> Do volunteer work at a non-profit organization	<input type="checkbox"/> Teach children how to play sports <input type="checkbox"/> Teach sign language to people who are deaf or hard of hearing <input type="checkbox"/> Help conduct a group therapy session <input type="checkbox"/> Take care of children at a day-care center <input type="checkbox"/> Teach a high-school class	Total <input style="width: 50px; height: 30px;" type="text"/>
Social checks =		
<input type="checkbox"/> Buy and sell stocks and bonds <input type="checkbox"/> Manage a retail store <input type="checkbox"/> Operate a beauty salon or barber shop <input type="checkbox"/> Manage a department within a large company <input type="checkbox"/> Start your own business	<input type="checkbox"/> Negotiate business contracts <input type="checkbox"/> Represent a client in a lawsuit <input type="checkbox"/> Market a new line of clothing <input type="checkbox"/> Sell merchandise at a department store <input type="checkbox"/> Manage a clothing store	Total <input style="width: 50px; height: 30px;" type="text"/>
Enterprising checks =		
<input type="checkbox"/> Develop a spreadsheet using computer software <input type="checkbox"/> Proofread records or forms <input type="checkbox"/> Install software across computers on a large network <input type="checkbox"/> Operate a calculator <input type="checkbox"/> Keep shipping and receiving records	<input type="checkbox"/> Calculate the wages of employees <input type="checkbox"/> Inventory supplies using a hand-held computer <input type="checkbox"/> Record rent payments <input type="checkbox"/> Keep inventory records <input type="checkbox"/> Stamp, sort, and distribute mail for an organization	Total <input style="width: 50px; height: 30px;" type="text"/>
Conventional checks =		

In the boxes below, write the names of the interest areas with the three highest scores. The first box is your highest or primary interest. If there are ties, choose the interest with activities that you think are the best fit for you.
