[www.uss.salvationarmy.org](http://www.uss.salvationarmy.org)

*“The Salvation Army is a wonderful organization. I had the pleasure of volunteering my time at an organization that finds joy in helping others. Volunteer opportunities range from serving meals to the homeless, tutoring children, and many other outlets that can make a difference in the community. My own personal experience, with volunteering at the Salvation Army, has left me knowing the importance of volunteering and the true need for a person’s helping hand. Any contribution, as small as it may be, can go a long way”.*

*“The Salvation Army is a great opportunity students should take advantage of; being able to explore your passions while doing rewarding hard work. I was truly able to reflect upon and strengthen my own values and beliefs while working with the homeless in the soup kitchen. I have gained imperative qualities that will help me to gain job opportunities that beforehand I would not of”.*

### **Organization: Pinellas Association for Retarded Children (PARC)**

Contact: Lisa Blackburn

Phone: 727-341-6933

Email:

Location: 3100 75<sup>th</sup> Street N., St. Petersburg

Opportunities: Work with children/adults with mental disabilities, special events, early child education

[www.parc-fl.org](http://www.parc-fl.org)

*“The reason I chose PARC was that I love kids and I have fun playing with them. So I wanted to challenge myself by working with children with mental and physical disabilities. PARC is a non-profit organization that supports individuals with developmental disabilities through direct care, administrative support, and community outreach. They provide opportunities to children and adults with disabilities to exercise their independence, enjoy an enhanced quality of life and experience life to the fullest. This experience was life changing to me. I learned a lot about myself and the community. I had to work with kids from different backgrounds and with different disabilities. By the time I finished my 30 hours, I came to an understanding of what this class was all about. We served our community while learning great lessons of life. This class is very different from other lecture or online classes because I had to work on my own and discover my weaknesses and strengths through my experience. I am planning to take Service Learning class next semester since we are allowed take it up to 3 times. I highly recommend this class to everyone who is willing to help the society and learn about themselves while earning a credit”.*

*"I would absolutely recommend RCS. The experience I acquired through volunteering there could have never been taught to me in a classroom setting. I have volunteered at several different locations working with both people and animals. I must say the experience of working with people was very different than working with animals. I met such great people and the experience moved me so much that I will continue to volunteer there for years to come".*

Location: SPC and local high schools

Opportunities: This is an effort of the Ethics Department of St. Petersburg College to encourage ethical reflection in the counties high schools. Students assist the coaches in preparing debate teams to compete in an ethics competition.

<http://appliedethicsinstitute.org/>

*"For the past 2 months I have worked together with Professor Monroe assisting him with the ethics bowl as well as the Leadership seminar. I can definitely recommend this service learning especially if you have already taken an ethics class and want to apply it in real life, as well as improve your critical thinking skills. Personally I have learned a lot and realized how ethics is a part of our every day life, which wasn't as obvious when I took the ethics course. Applying the skills you learn in theory in real life makes you understand the topics better and enables you to see different points of view as well. This entire experience will improve your awareness of ethical dilemmas in your everyday life".*
