Minutes

- Updates about Veterans Services and the outcomes of our audit
- Discussion: The VA has requested to use our Seminole campus as a facility to advertise some VA Health initiatives
 - Should the VAC have a concurrent resource fair?
 - All are in agreement that we should
 - What types of vendors should we invite?
 - Invite 501c3's of all sizes, focusing on the active but lesser known organizations
 - Ensure that vendors have an opportunity to mingle with one another
 - How can we make this different and more impactful than other similar events?
 - We need to somehow incentivize the vendors to get out and shake hands with other vendors-perhaps a coffee social hour
 - Collect material from all vendors and put it together as a handout
 - Ask registrants to sign in and tell us some of their needs. At the debriefing we can farm out these needs to vendors who can potentially help them.

- As vendors to bring a list of things that their organization needs-purpose is for other vendors to see the needs and hopefully be able to fill those needs via their own orgs.

Action Items

- Talk to VA/Dave Miller about what exactly the VA would like to accomplish-Allison
- Identify a date/time/location-Allison
- Identify budget needs
